

# i3NOTES

## MANUAL

Whiteboarding made easy

i3NOTES offers essential whiteboarding tools for the i3HUDDLE to make notes and draw ideas with digital ink.

The intuitive interface allows you to get started immediately.

## CONTENTS

1. Tools menu	4
2. Tab options	5
3. Sharing options	5
4. Behavior settings	7
5. Gestures and advanced interactions	8
6. Admin settings	10
7. Troubleshooting	12

# 1. Tools menu

The tools menu contains the six basic functionalities of i3NOTES:

1. Minimize i3NOTES
2. Saving and sharing options
3. Marker pen: press the icon to choose color and line thickness, press the outer right color to see more color options and customize colors
4. Normal pen: press the icon to choose color and line thickness, press the outer right color to see more color options and customize colors
5. Eraser: press the icon to choose eraser size. Use more fingers to erase faster.
6. Erase all ink and clear the canvas.

Press and hold the symbol in the inner circle to drag the tools menu across the canvas.

## 2. Tab options

Tabs are defined by date & time of creation.

Press the + button in the bottom right of the screen to add new tabs.

Press and hold the name of the tab to delete the tab.

## 3. Sharing options

You can choose from three different sharing options (\*):

Email as PDF file (enter your e-mail details)

Export to i3MEETINGHUB (you will need to enter your account details)

Direct download as PDF file: scan the unique QR code of your session with your mobile device to receive the document instantly on your device.

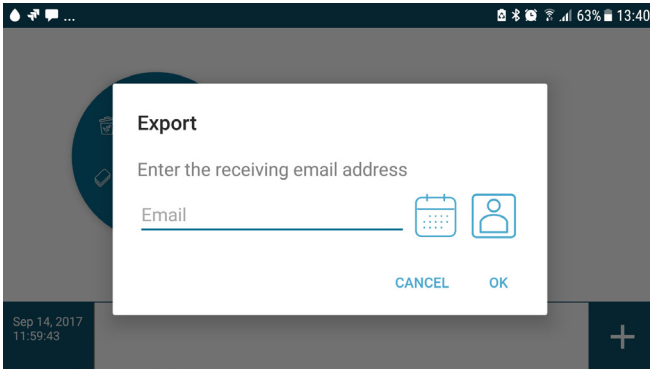

### 1) Email

- Email as PDF

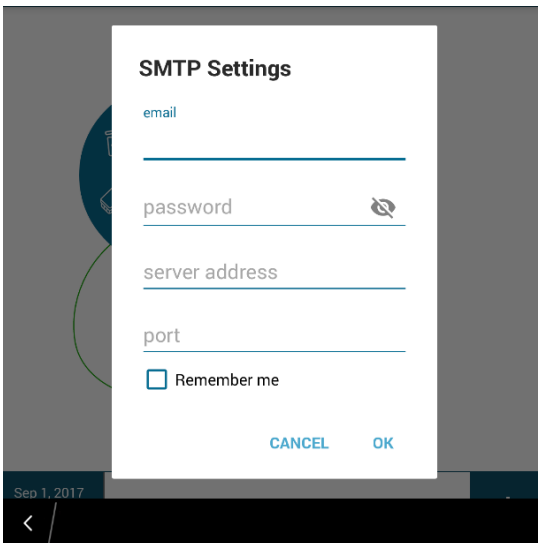

- o **Use i3NOTES** (i3cloud service): use this when you don't have a mail server.

- o **Use Microsoft Exchange**: enter your Office 365 credentials. This may take a while depending on your connection. You can choose later whether to save them. This also allows access to your calendar and contacts list.

(\*): some of these options may need to be activated - see chapter about Admin Settings.

o **Use SMTP:** enter your personal server data

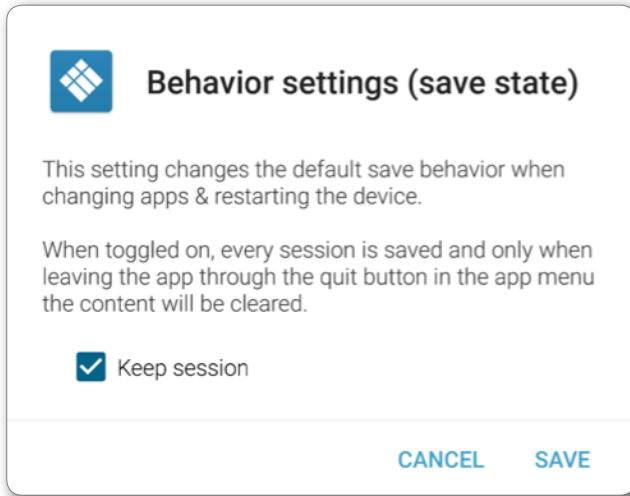

- 1) Export to i3MEETINGHUB: save to and continue editing in our cloud platform.
- 2) Direct download as PDF: download the PDF directly to your phone by scanning the QR code. i3NOTES and phone must be connected to the same subnet.
- 3) Export to USB: save a PDF directly on a USB stick.

## 4. Behavior settings

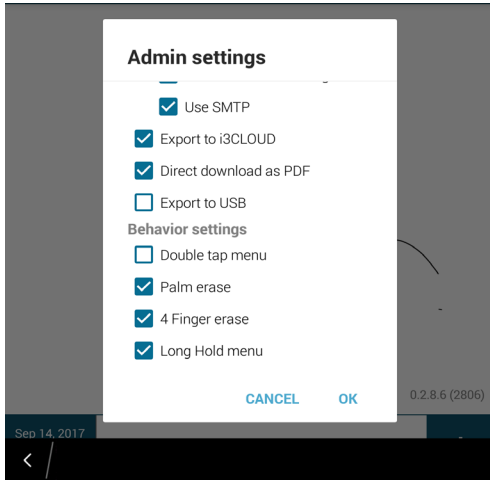

Behavior settings: by checking the box 'Save session', you will be able to return to your session later when switching between apps. By leaving the box unchecked, your canvas will be erased every time you close i3NOTES.

*NOTE: when you close your session without saving it in the behavior settings, you will lose the document on your device.*

## 5. Gestures and advanced interactions

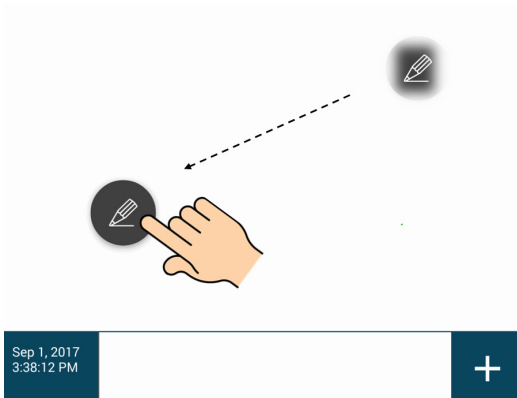

As standard, the advanced gestures are set to off. You can switch them on in the admin settings menu.

### 5.1 Erase

- On i3HUDDLE: use your fist to erase
- On i3HUDDLE and other i3DISPLAYS: use four adjoining fingers to erase

### 5.2 Long press summons floating menu

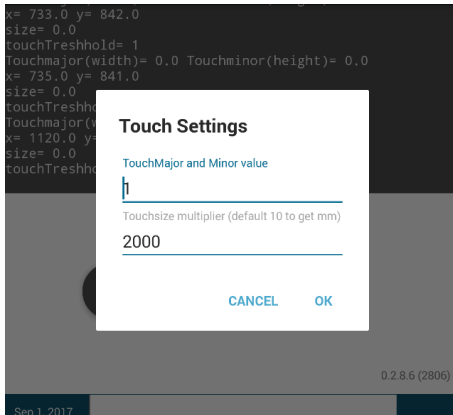

### 5.3 Gesture calibration

If the palm erase toggle is active, but the function doesn't work as expected, please take a moment to manually configure it.

1. Long press the + sign until version number appears.
2. Quickly tap the version number 5 times: a configuration menu will appear.

3. Touch the board with one finger, note the “size” value that appears (Value A).
4. Next, touch the board a few times with the palm of your hand, or your fist. Note the size values (Value B).
5. In the TouchMajor and TouchMinor value field, fill out a value slightly smaller than lowest Value B and significantly larger than value A.
6. Next fill out a multiplier value to achieve an eraser size the corresponds with the size of your palm/fist. In most cases, 2000 is a correct number. Press OK.

To remove the calibration overlay, long press the + sign.

## 6. Admin settings

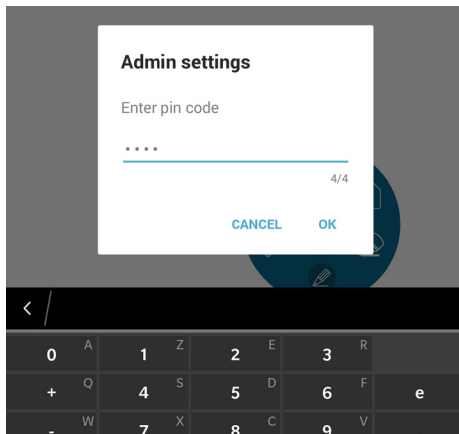

0.2.8.6 (2806)

Press and hold the + button. The version number appears.

Press and hold the version number. You are prompted to enter a PIN. Choose 3333.

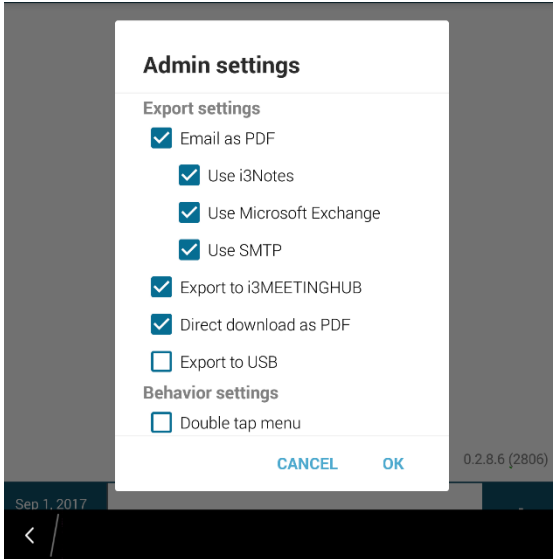

You will be directed to the email / admin settings.

Please select what should be displayed to regular users. Press OK.

Tick / untick features as desired (see also chapters on sharing, behavior settings, gestures and advanced interactions).

To exit the admin menu, long press the + sign.

## 7. Troubleshooting

0.0.9 (900)

### i3NOTES Version

When, during troubleshooting, you are requested to enter your i3NOTES version, press and hold the + button to make the version number appear. Press and hold the button again to make it disappear.

### i3NOTES Activation

Since version 2.5.2 activation of i3NOTES is done automatically.
