

i3SWEEZZ SESUNI(L)

The digital school board or touchscreen can be “sweezed” to each class for targeted explanation and learning. That way the rest of the class is less distracted. Also very suitable for giving lessons in combined classes. The long-run electrical height adjustment allows teachers to use the entire board - little children can also work on the board. The i3SWEEZZ is of very solid and stable construction and extremely flexible to use.

For Smartboard* in combination with the most common ultra-short throw projectors SESUniL-01

* Installation with column also useful for smartboard

For widescreen Smartboard* in combination with the most common ultra-short throw projectors SESUniL-01

* When installed with column, the SESUniL-01 installation is sufficient.

SPECIFICATIONS

i3SWEEZZ Electric	SESUNI(L)-01
Actuator	3000 Newton
dist.	± 80 cm (4:3) - (L) ±107 (16:10)
range	± 67 cm
H4 (board)	99 - 144 cm
aspect	4:3 / 16:10 / 16:9
P1	max. 40 kg
dist-p	depending on projector mount
P2 (dist-p = 150 cm)	max. 8 kg
	max. 12 kg
H1	160 - 175 cm
H3	72 cm
H5 (H1=165 cm)	58 - 125 cm
H6 (□ H1 = 165 cm) pos. 1:	28 - 95 cm
pos. 3:	38 - 105 cm
pos. 5:	48 - 115 cm
Pull (Situation A)	≤ 115 kg
Pull (Situation B)	≤ 45 kg

Using i3SWEEZZ in different positions

- 1 i3SWEEZZ
- 2 digiboard
- 3 beamer
- 4 shaft (option for low load-bearing walls)

TECHNICAL

• The i3SWEEZZ can be fixed direct to a stone wall by means of rawplugs.

• A stand can be used for plaster and partition walls to provide sufficient load-bearing capacity.

Placing: middle, right, left, on a stand, between two frames, etc. - Turns through 360°.
